

Centennial High Mathematics

learning | as unique | as every student

Calgary Board
of Education

Most Important Thing to Say?

- Math can be stressful.
- We get it, and you have a math department here at Centennial who works tirelessly to help you feel better about the math work you are doing.
- We can do this together!

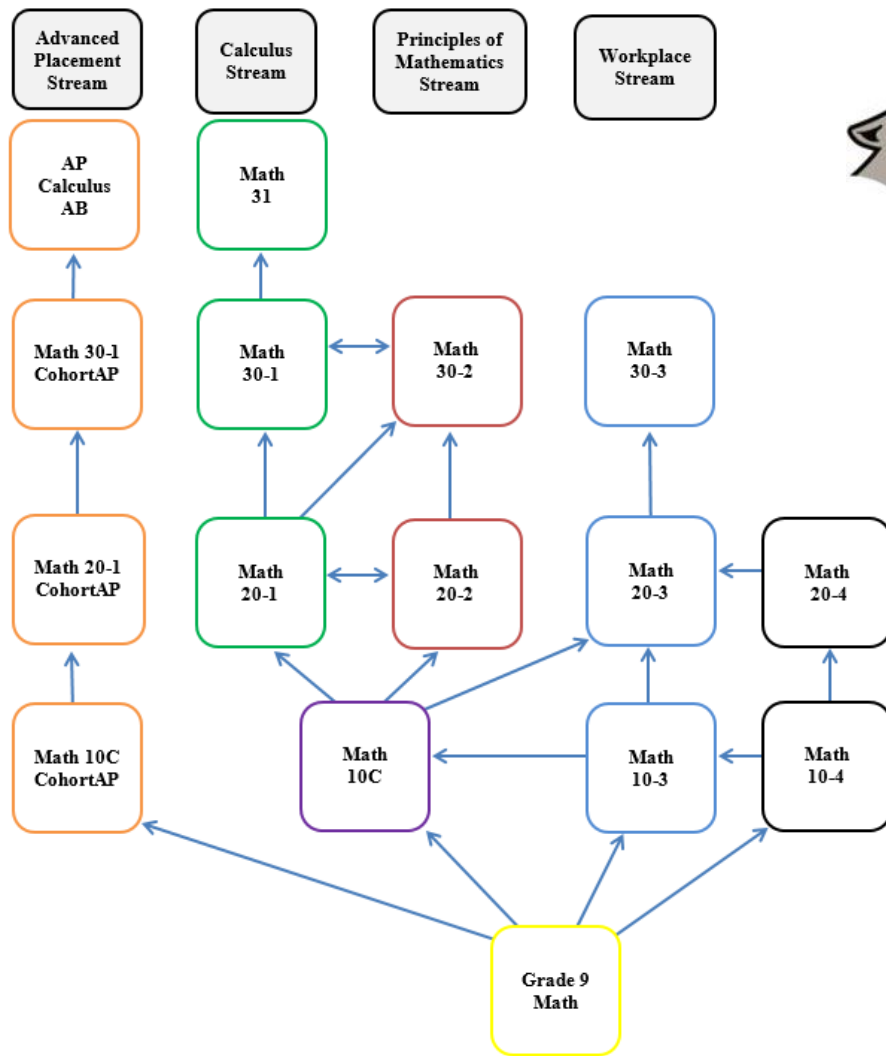

What Math Course Should I be Taking?

A look at Math Course Sequencing

Things to Ponder

- There is no 10-1 Math course. 10C is a combined course with -1 and -2 items. After 10C, you make a decision about the right path for you.
- There are many pathways to complete your math journey – there is not one way that's better than another

Things to Ponder

- The -1 stream **does not** keep more doors open. For certain careers, it is better to have the -2 stream.
- Bored in Junior High????? You want to take our AP Stream!!! You'll love it! It's not more work, just more fun. 😊
