Digital Citizenship Plan | 2026-2027
Centennial High School

Calgary Board of Education

Digital citizenship is about using technology and participating in digital environments. It is key to helping our students learn to use available technology responsibly in the classroom and beyond. This Digital Citizenship Plan addresses how we work to build a community where we live and work together as digital citizens.

Relevant contextual information about our school and School Development Plan:

- SDP Well-Being Goal: Students will engage as agents of their well-being through goal setting, connection and reflection, which will increase their confidence and well-being.
- Create opportunities for students to approach and comprehend content in all disciplines through high impact strategies and multiple entries to learning.
- About our school

Relevant evidence and data that informs our Digital Citizenship Plan:

- Students raised concerns around safety in the school and inappropriate bathroom activity, as well as bullying.
- Students would like to have the ability to use their device as an educational tool, when needed.
- About our school

Long Term Goal	Competency	Short Term Goals	Outcomes	Activities & Resources	Measures
Long term goal #1 Learners will demonstrate safe, caring and respectful spaces for all students.	**Safe:** I know how to be safe online and create safe spaces for others in online communities. I know how to protect my personal information online	*Short term goal #1* Students will learn to understand the consequences of their actions online and will learn that they can never record anyone without consent.	Students will not ever record another person without first asking for permission. Students will be careful with what they post online regarding themselves and others in order to show respect to themselves and others.	Students will understand how use of social media can affect all aspects of life, including how to be safe. Use of Social Media Students will learn how the Student code of conduct	Pre- and post-surveys CBE Student Survey Wellbeing questions

Long Term Goal	Competency	Short Term Goals	Outcomes	Activities & Resources	Measures
				affects their day-to-day interactions with others both in person and online. Instruction in class. Lessons in CALM class.	
		Short term goal #2 Students will understand terms like “phishing” and how to protect themselves online from harmful behaviors.	Students will be able to identify a phishing email or text and know what to do to avoid being scammed. Students will learn about other harmful online behaviors and how to avoid getting pulled into nefarious situations.	Referring to the Responsible Use of Electronic Information Resources students will ensure they understand how to be responsible using technology in various settings through practice at school. Lessons in CALM class.	Pre- and post-surveys CBE Student Survey Wellbeing questions
Long term goal #2 Students will use technology appropriately, and at appropriate times, as an educational device, while respecting the rules and regulations outlined by the provincial government.	**Balanced:** I balance time online and offline to promote positive mental, emotional and physical well-being I understand appropriate times and situations to use technology	*Short term goal #1* Students will gain awareness of the various types of technology and their prevalence in their social worlds. They will learn how to track the amount of time spent on technology and how it can affect their health.	Students will reflect on technology use – including how long they are using it; what it is used for; when they are using it; and be able to identify when it is time for a break. Students will also use strategies to track the amount of time spent on academic, social, and personal contexts.	Teachers to have discussions with students about technology use and well-being in different contexts, incorporating student voice. Personal Mobile Devices and Social Media in Schools Lessons in CALM class.	Pre- and post-surveys CBE Student Survey Wellbeing questions Students will identify that they need a break from technology and will take it.

Long Term Goal	Competency	Short Term Goals	Outcomes	Activities & Resources	Measures
		Short term goal #2 Students will recognize when it is appropriate to use technology and limit the use of cell phones during the school day.	Students will follow school and classroom rules for appropriate times and purposes for the use of technology.	Students will respect the Student code of conduct and Student Personal Mobile Devices initiatives and put away cell phones during class time. They will honour the classroom and school rules around cell phone use and be respectful of all teachers and students. Instructions in class. Communication ongoing between home and school.
